DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see page 9, lines 8-14, filed 22 May 2006, with respect to claims 1-13 and 15 have been fully considered and are persuasive. The rejection of claims 1-13 and 15 have been withdrawn.

Allowable Subject Matter

2. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record fails to anticipate or make obvious the structure of claims 1-13 and 15, including, *inter-alia*, attaching a bladder within a blood pressure cuff at the longitudinal ends and leaving the bladder free of the cuff along the sides.

Kuroshaki'182 discloses a cuff that contains a bladder that is attached along three edges – the two longitudinal ends and one of the sides.

Aronson'937 discloses a cuff that contains a bladder that is held in place at the two longitudinal ends, but does not disclose a motivation for such a design.

Election/Restrictions

3. This application is in condition for allowance except for the presence of claim 14, directed to an invention non-elected with traverse in the reply filed on 22 May 2006. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever

The prosecution of this case is closed except for consideration of the above matter.
